First Aid Procedure:

Skin: If irritation occurs, wash with soap and water.

Eyes: Immediately flush eyes with water for at least 15 min. If irritation persists, seek medical attention.

Ingestion: Gastrointestinal upset (diarrhea, vomiting) may result from overdose.

4. REACTIVITY DATA

Stability: Stable under label conditions

Incompatibility: None

Hazardous Decomposition or Polymerization Products: None

5. FIRE AND EXPLOSION HAZARD DATA

Flash Point: Non-flammable

LEL/UEL: Not applicable

Extinguishing Media: As applicable to type of fire

Special Fire Fighting Procedures: None

Unusual Fire/Explosion Hazards: None

6. SAFE HANDLING AND USE PRECAUTIONS

Spill Response: Wipe up with absorbent material and dispose of in general trash.

Waste Disposal: Dispose of in accordance with all federal, state and local regulations.

Handling: Avoid contact with eyes.

Storage: Keep container tightly closed. Store at room temperature, 15-30°C (59-86°F).

7. TRANSPORTATION

Not regulated by the US Department of Transportation (DOT), International Maritime Organization (IMO), or International Air Transport Association (IATA).

8. OTHER INFORMATION

Disclaimer: The information provided in this MSDS is believed to be accurate as of the time of preparation. By making the MSDS available, Access Pharmaceuticals does not make any express or implied warranty regarding the MSDS, its accuracy, or the product to which it relates. It is the responsibility of the user to determine the suitability of this information for the adoption of necessary safety precautions and disposal procedures. Anyone using this information agrees that Access Pharmaceuticals shall not be held liable for any personal injury or other damage relating to, or arising from such use, including direct, incidental, or consequential damage and such user agrees to indemnify Access Pharmaceuticals for any claims arising out of its use. Please be advised that this MSDS is intended for industrial purchasers, which may use large quantities of the product. The listed hazard data may reflect hazards related to the formulation as a whole, or to individual components at 100% concentration. Therefore, certain warnings and hazard statements contained on this MSDS may not be applicable to or included in the package labeling to the general public.
